

High-Volume Low-Heat Blower

Need a lot of air, but not a lot of heat? This blower combines high volume with gentle heat and is adjustable (head pivots 180°) which means you can zero in on an exact spot—perfect for warming and low-heat drying jobs.

Blower operates on 110/120 VAC, 60 Hz and is rated for continuous use. It has a steel and aluminum housing, coil-wound mica heating element, three-position (off/low/high) switch, thermal limit switches, shaded-pole brushless motor for long life, and 8-ft. power cord with three-prong plug. Nozzle opening: 3". Size: 13" Lg. x 9" Wd. x 18" Ht.

Maximum Temperature*	Air Velocity, fpm	Air Volume, cfm	Watts	Amps	Each
105°/140° F	3850	205	1800	8/15	

* Measured at end of nozzle.
